

# MAINTENANCE MANUAL

## CLEANERS

At **gomy**FLOOR we recommend cleaning your installation with the following cleaners:

**LimGF cleaner**, is a highly concentrated and versatile alkaline detergent that thoroughly and easily cleans all washable surfaces, gently penetrating and disintegrating the deepest dirt. It completely neutralizes the effects of hard water, thus preventing the deposition of salts on the washed surfaces.

**BacGF cleaner**, is a moderate alkalinity detergent with high cleaning power that incorporates in its formula products with a broad spectrum microbicidal action. It easily removes difficult dirt accumulations without attacking any type of surface due to its slightly alkaline character.

**PerGF cleaner**, is a colorless liquid with an acetic acid odor. Its microbicidal action is due to the product's ability to oxidize the thiol and sulfhydryl groups present in certain proteins, thus altering their biological functions. Its microbicidal action is far superior to that of hydrogen peroxide. The presence of organic matter, particularly protein, does not affect its microbicidal power. Great disinfectant action against bacteria, fungi, spores and viruses.

## CLEANING TABLE

\*After the 9th week repeat the cleaning table.

## NECESSARY TOOLS

LimGF cleaner	Sponge	Very soft floor brush	Electric scrubber
BacGF cleaner	Pressure sprayer	Floor squeegee	
PerGF cleaner	Floor vacuum cleaner	Cleaning towel	

## CLEANING

**Step 1**, preparation of the area to be disinfected and the tools to be used. Also select the type of cleaner using the cleaning chart.

**Step 2**, apply the cleaning liquid in the installed area with the help of the pressure sprayer, the cleaner must rest for 5-10 min. The cleaning liquid must be refreshed to prevent it from drying out.

**Step 3**, spread the cleaner on the floor with the help of the brush.

**Step 4**, we will use the vacuum cleaner to clean the area and the electric scrubber to clean the cleaning liquid area.

**Step 5**, rinse the area with water and clean the area with a scrubber or floor squeegee.
